And there came a day, a day unlike any other, when Earth's Mightiest Heroes found themselves united against a common threat! On that day, the Avengers were born, to fight the foes no single super hero could withstand!

In the wake of the Skrull invasion, Tony Stark has been stripped of his roles as both leader of the Avengers and director of a now-defunct S.H.I.E.L.D., and the Avengers are on the run. Until they can be sure who's on their side, the Avengers are using Captain America's hideout in Brooklyn as a safe house. Collectively they try to keep the values of the Avengers name alive even though they are living on the wrong side of the law.

Norman Osborn is the new political and media darling and, in Tony's place, is now running H.A.M.M.E.R., the national peacekeeping task force, which includes his own team of Avengers. Unable to stand it, Ronin finally took matters into his own hands and went on national television to out Osborn as the former villain called the Green Goblin.

But something far worse is stirring, only it's not on this mortal plane.

Some time ago, the Sorcerer Supreme, Doctor Stephen Strange, corrupted his mastery of the mystic arts when he used dark powers to save the Avengers. He hasn't been seen until now, when he comes to the Avengers for help in his mission to find the new Sorcerer Supreme before the Dormammu-possessed criminal kingpin called the Hood finds him first.

Strange, along with the Avengers, follow the Eye of Agamotto to New Orleans…little do they know that the Hood's beaten them there, shooting Daimon Hellstrom, the Son of Satan, point blank.
